Product

Stage Props Professional Stage Cigarette Prop System

Intended Use

Professional use in theatre, film, television, opera, live productions, drama schools and rehearsals.

System Components

• Rechargeable Battery

• Replaceable Filter

Dimensions

Overall length: Approx. 100 mm (battery and filter combined).
Diameter: Approx. 10 mm.
Total weight: Approx. 15 g (battery and filter combined).

Performance

• Automatic activation during use

• Fixed output

• Visible stage effect suitable for theatre and camera work

• Red LED indicator during operation

Operating Principle

The Stage Props Professional Stage Cigarette Prop System consists of two components:

• Rechargeable battery

• Replacement filter

The replacement filter is attached using a threaded connection.

The system activates automatically during use and requires no buttons, menus or settings.

This helps explain how the system works without requiring the reader to consult the user guide.

Consumable

The replacement filter contains only Propylene Glycol (PG) and Vegetable Glycerin (VG). It contains no nicotine, no tobacco, no flavourings, no colourings and no additives.

Service Life

Battery: Approx. 250 recharge cycles.
Filter: Approx. 200 uses, depending on individual usage patterns.
Recommended replacement: New filter before each performance for optimum hygiene, consistent performance and the best possible visual effect.

Intended Users

• Professional theatre companies

• Film productions

• Television productions

• Opera companies

• Drama schools

• Performing arts organisations
